2.5 Job satisfaction

This is a ranking exercise intended to get students thinking about what different jobs involve. As this is about personal opinions rather than right or wrong answers let the students do it individually and then check if their friends have the same opinions. The follow-on questions should provoke more discussion, particularly the one about jobs which are only suitable for men/women. For the 'five most important factors to consider when choosing a job' give students adequate time to think – this is something they could do in pairs. If they are struggling for ideas you can prompt them with

suggestions from this list: Long holidays, responsibility, good salary, making decisions, solving problems, foreign travel, contact with people, stressful situations, working overtime, not always in an office, varied tasks.

The nationality column can be filled in at the end – the passengers are all going 'home', so the nationalities will all relate to the countries in the destination column (see below). It is important to monitor the class quite closely to make sure they are trying to communicate in English, and that they are doing the task correctly.

Step 2: Check the answers. The clues below are printed in the order they should be used in order to solve the puzzle. This will help you explain the answers at the end of the activity, and also help students who are stuck.

Mum TOLD me to eat something so I ORDERED some toast and a cup of hot chocolate.

After breakfast I TOLD my parents I WANTED to look around the shops.

The first thing I SAW was a pair of very cool sunglasses but they WERE really expensive.

Exercises (final test)

Listening text (to be read aloud by the teacher)

Carnivals can happen at any time of year: people dress up and ride floats through the towns, and there is a great deal of music and dancing. The word 'carnival' is most often associated with the celebrations that take place in Catholic countries just before Lent, but its origins are in the pagan rites of spring, which celebrated fertility. Because these celebrations were hugely popular the Roman Catholic Church was unable to cancel them altogether, so instead they were absorbed, and became a period of feasting and entertainment before Lent. Lent is the period of 40 days and 40 nights before Easter when Christians generally eat less and abstain from certain things. The word carnival comes from the Latin 'carnis' meaning flesh or meat, and 'vale' meaning farewell or goodbye.

Three of the most famous carnivals are New Orleans, Rio de Janeiro and Venice, all in Catholic communities. In New Orleans the carnival begins on 6th January and continues until Mardi Gras, which is the French equivalent of Shrove Tuesday (literally 'fat Tuesday'), the last Tuesday before Lent.

Venice carnival is famous for its masks, which were worn to disguise the wearer and so hide social and class divisions. A masked ball in Shakespeare's *Romeo and Juliet* allows the lovers to meet, even though their families are at war. The most common costume at the Venice carnival was a black silk hood, a cloak, a three-cornered hat and a white mask that completely covered the wearer's face.

In Rio the carnival starts on a Saturday and ends on Shrove Tuesday. For those four days thousands of people fill the city's street with parades, dancing and amazing costumes. By Ash Wednesday the party is over and Lent begins – a period of abstinence.
